ASHWIN R

Computer Science Engineering Student

Chennai, Tamil Nadu, India | +91-9952974706 | ashwinraj9800@gmail.com | LinkedIn | GitHub | LeetCode

PROFILE SUMMARY

Computer Science student with a strong interest in Python development, Natural Language Processing, and AI-assisted applications. Experienced in building end-to-end academic and personal projects spanning machine learning, intelligent tutoring systems, and data-driven desktop applications. Comfortable working across the stack, from data persistence to visualization, with a genuine curiosity for how systems work internally.

EDUCATION

SRM University *2023 – 2027*

Bachelor of Technology, Computer Science and Engineering • CGPA: 8.11

Chettinad Vidyashram School *2022 – 2023*

Higher Secondary Education — Science with Computer Science

PROJECTS

SmartTutor AI — e-Learning System & Analytics Hub *Feb 2026 – Apr 2026*

Python, Tkinter, SQLite, Pandas, Matplotlib

- Built a multi-portal educational application delivering targeted practice testing for students and analytics dashboards for instructors.
- **Data & Backend:** Used SQLite for persistent storage of quiz history and metadata; integrated Pandas to read, clean, and sample question datasets.
- **Data Visualization:** Developed an in-app analytics suite using Matplotlib to translate database tables into charts, including subject mastery percentages and test distribution metrics.

AI-Powered Desktop Journal & Emotion Tracker *Jul 2025 – Nov 2025*

Python, NLP, Tkinter, Matplotlib, Pandas

- Developed a full-featured desktop journaling application that analyzes user text at the sentence level to track emotional well-being over time.
- **Model Integration:** Integrated a Hugging Face DistilRoBERTa model with custom heuristics to classify text into 7 distinct emotional states.
- **Visualization & Storage:** Built interactive emotion-timeline scatter plots in Matplotlib and implemented structured CSV data persistence with Pandas.

SKILLS

- **Languages:** Python, JavaScript, C#, HTML, CSS
- **Libraries & Frameworks:** Pandas, Matplotlib, Tkinter, LangChain
- **Tools & Platforms:** SQLite, VS Code, Blender, n8n
- **AI & Concepts:** Machine Learning, NLP, Retrieval-Augmented Generation (RAG), AI Agents

CERTIFICATIONS

- Introduction to Machine Learning
