Ashwin R

Computer science student, Chennai

ashwinraj9800@gmail.com · +91 99529 74706 · linkedin.com/in/ashwin-r · github.com/ashwin-subspace

EDUCATION

SRM University — B.Tech, Computer Science and Engineering
2023 – 2027 · CGPA 8.11

Chettinad Vidyashram — Higher secondary, science with computer science
2022 – 2023

EXPERIENCE

Website development intern — Insoft Solutions, Chennai
July 2026 – August 2026 · Frontend and API
Internship on the company's site. The repository insoft-solution is a Flask and SQLite rebuild: a catalogue, an enquiry form, and an admin list, set up to run locally.

PROJECTS

AI Sheet Editor · 2026 · TypeScript, React, Vite, Node
A local spreadsheet. The grid edits cells and formulas; a chat sidebar asks Gemini, Groq, or a local Ollama model for structured edits. A checker runs each proposal on a copy of the workbook, and the .xlsx file changes only after accept. API keys stay in a gitignored settings file. github.com/ashwin-subspace/ai-sheet-editor

Flick · 2026 · Java, Android
Draw a motion with a thumb. The app fits a cubic Bézier, a spring, or a path spline and exports CSS, Jetpack Compose, Android pathInterpolator, Flutter, SwiftUI, and After Effects influence. Touch samples go through a One Euro filter. A Bézier is preferred when it is good enough. Offline, no Gradle, no network. Desktop tests recover known Bézier and spring parameters. github.com/ashwin-subspace/flick

SKILLS

Java, Python, TypeScript, JavaScript, HTML, CSS. Android SDK builds without Gradle, SQLite, custom views. React, Vite, Node.js. Pandas, NumPy, scikit-learn, Matplotlib, Seaborn, Hugging Face Transformers. Tkinter, Blender Python, Git.

CERTIFICATIONS

Introduction to Machine Learning. Python and Machine Learning for Complete Beginners.

LANGUAGES

English, Tamil, Hindi.
